John A.

“all sports have patterns, and those who win big in bets had, at some point, discovered these patterns. It feels like a superpower”

**“The first time I met John was when I was working at a bet9ja shop in Port Harcourt. I quickly made friends with him because he was the friendly type, and was one of the few people who seemed to win every single time they came to the shop. People would literally come to the shop and sit, waiting for him to come and help them cross-check the games they wanted to play. Even after I've stopped working at the shop, I still meet him for game predictions.”**

**- Pere**

**“It amazes me how John is always the first to find new loopholes in the betting system and take advantage of them as quickly as possible. He is always buying new phones and gadgets, all funded by his betting games. He would set a target, place bets over a short period of time, win money and use it to buy whatever he fancied at the time. He just knows how to almost eliminate risks in his bets and come out ahead, winning a lot of money. It's crazy how accurate his forecasts usually are. It's almost shocking ”**

**“Accumulated earnings from last Champions League's semi-final and Copa Del Rey final. The strategies I used are explained in this book”**

## **CHAPTER 1**

**Late last year, a guy I know went to one of the online bet pundits and asked for sure 2 odds.**

**They took his money, and gave him some games and he staked 5k on those games. The games cut that same evening. He went back to the pundit guy and complained that the games had cut. The pundit guy told him not to worry, and gave him another set of games, telling him that these ones now were sure bets. This guy staked again and lost another 5k. He was so angry. He went back and contacted the pundit guy, but didn't get any reply.**

**About a week later, I was having a casual conversation with this guy when he told me this story. He showed me the games he was asked to play, and when I saw it, I was surprised because I had played almost every game on that slip, but my own predictions had been right.**

**So where did the pundit get it all wrong?**

**After pondering his slip for a minute, I discovered numerous betting errors the pundit had made (and I'm quite sure a lot of you make these same errors too).**

**In fact, I used to make those same errors myself. Many years ago, I delved into the world of sports betting clueless just like most people. I needed some extra cash at the time so I placed "common sense" bets, thinking "of course the bigger team will win". I lost money in those day. Annoyed, but determined, I began studying the betting game closely and taking notes. I began placing lots and lots of small bets to test and figure out what works and what doesn't. I figured out strategies that worked a lot of time, and then used big amounts to play them. The more I won, the more people began to notice. Overtime, I made friends with other people who also won a lot, and I discovered something.**

**They all had strategies too.**

**And some of those strategies were the same with mine.**

**Some weren't.**

**For years, we exchanged, tweaked and refined these strategies until we started noticing an outrageously high success rate.**

**These days, I spend much of my profits on new gadgets, mostly phones or laptops. Perhaps, looking into investing wouldn't be a bad idea.**

**✓ This book will hold you by the hands, and show you a step by step guide you can follow to cash out big in this betting game.**

✓ It will help you discover common betting mistakes and avoid them like the plague.

✓ You will find strategies that will help you ensure you win a lot. I think of them as loopholes in the betting system. I've been taking advantage of them for a very long time, and you should too.

## **STRATEGY 1:**

### **THE BETMINES STRATEGY...AND HOW TO BEST APPLY IT FOR UNDER 1.5, 2.5 AND 3.5**

**In order to use this strategy, you have to first download the BetMines app (available in playstore).**

**And according to their customer support, coming soon to ios.**

**If you have access to a Windows PC, you can also get Betmines by downloading “Bluestack”, an app that helps you access and use Android apps on your PC).**

**Now let's begin.**

**BetMines is a free match prediction app. Games appear on the homepage in order of time the game starts.**

You'll first see games that are already in Full Time, down to games that are Ongoing, down to Games that are yet to start.

The screenshot shows a mobile application interface for a sports betting platform. At the top, there's a navigation bar with a menu icon, a search bar containing 'SEARCH', a diamond icon with '0.0' next to it, a funnel icon, and a help icon. Below the navigation is a weekly calendar from Thursday to Tuesday. The main content area displays several football matches:

- Slovakia - 2. Liga**: FT Banska Bystrica 3 - Ruzomberok II 2. Bets: 1.40, 4.75, 6.00. Total: O15 (1.14).
- Finland - Ykkonen**: 61' TPV 2 - MYPA 0. Bets: 1.62, 4.00, 5.00. Total: O15 (1.20).
- Finland - Ykkonen**: 65' TPS 2 - KTP 0. Bets: 1.55, 4.20, 5.50. Total: 12 (1.22).
- Finland - Kakkonen**: 62' KaaPo 1 - SalPa 1. Bets: 2.15, 3.75, 3.00. Total: O15 (1.17).
- Bulgaria - Parva Liga**: 48' Vitosha Bistritsa 1 - Arda 1. Bets: 4.00, 3.25, 2.00. Total: NG (1.67).

At the bottom of the screen, there are four navigation buttons: 'MATCHES' (showing a smartphone icon), 'LEAGUES' (showing a trophy icon), 'LIVE' (showing a play button icon), and 'BETS' (showing a diamond icon).

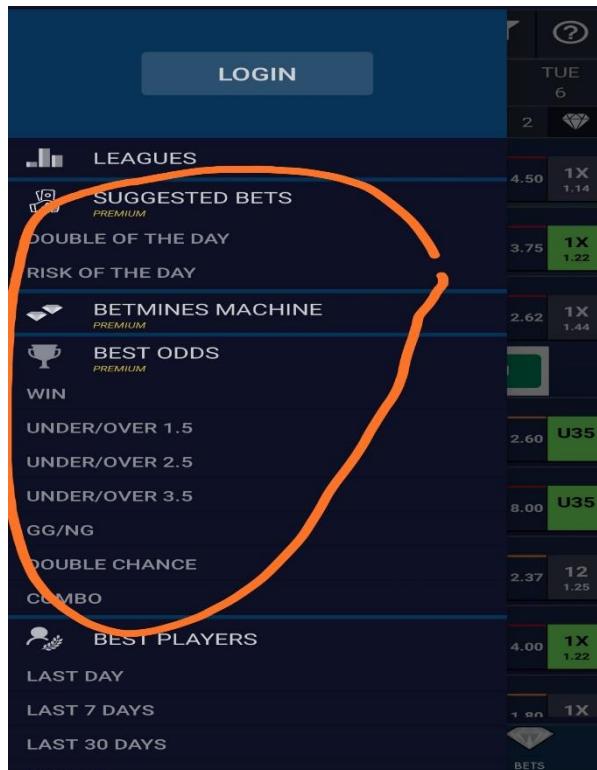

The app has a good prediction success rate, but they can be wrong a lot of times too. So in this book, I'll teach you the strategy we use in weeding out predictions that are likely to fail, thereby increasing our chances of winning by over 95%.

**Before we get into that, I'd also like to mention that the app has some nice features. Just press the bar on the top left corner**

**You'll see their "double of the day" (2 odds games), "Risk of the day" (4 odds games) and "BetMine Machine" (you set how many odds you want, and it spits out games for you. I don't recommend this)**

**You can play all the suggested games, or pick one or two,  
depending on what you want to do.**

**But like I said, they can be wrong a lot of times too.**

**So If you want to predict games by yourself using this app  
(which I highly recommend), there is a strategy I will share  
with you here that guarantees over 95% success rate.**

**Let's go.**

Press AVERAGE UNDER/OVER

**NOW LET'S FOCUS ON JUST "UNDER 1.5, 2.5 and 3.5"  
(WHICH ARE ON THE LEFT SIDE OF THE TABLE)**

You'll see the % for which both teams have previously played  
"under 1.5", "under 2.5" and "under 3.5"

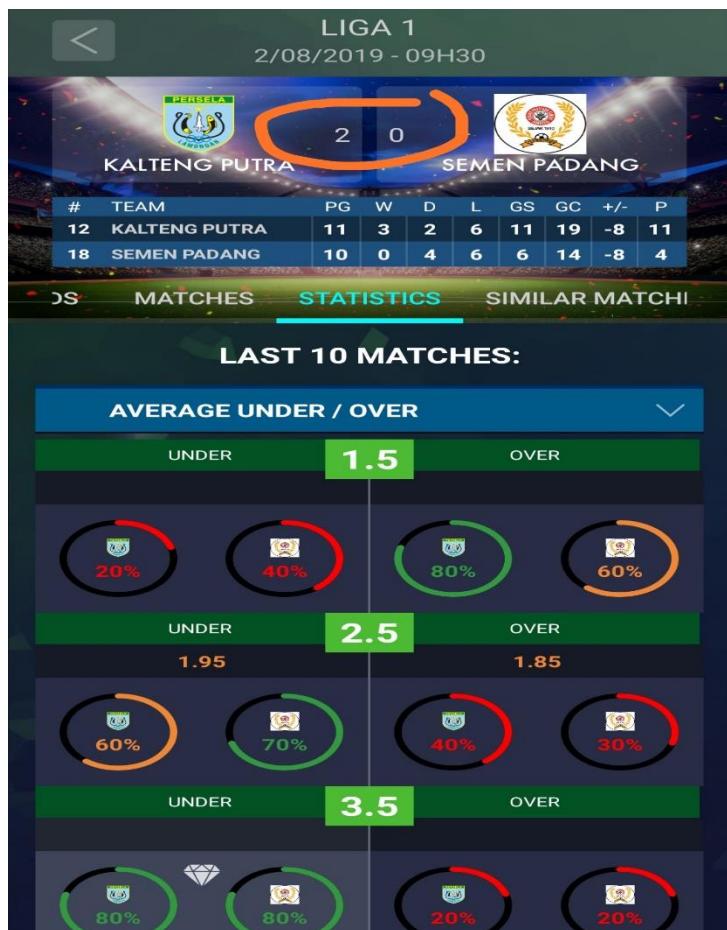

**NOW THIS IS HOW YOU PLAY IT TO ENSURE OVER 95% CHANCE OF WINNING. LISTEN CAREFULLY**

- IF the "UNDER 3.5" percentages are up to 80% for both teams each
- AND the "UNDER 2.5" percentages are up to 60% for both teams each

**-BET UNDER 3.5 for that game.**

As you can see, the game ended 2:0.

Also know that since the STATISTICS are compiled using the results of the LAST 10 MATCHES, it is best to apply the BetMines Strategies on matches where the Played Games (PG) of both teams are up to 10 or above 10.

## WHEN TO BET "UNDER 2.5":

- IF the "UNDER 2.5" percentages are up to 80% for both teams each
- And the "UNDER 1.5" percentages are up to 60% for both teams each

## ILLUSTRATION

- BET UNDER 2.5 for that game.

The good thing about this strategy is that you don't even have to know the teams playing!. Like they say "numbers don't lie". All you do is go to the app, check different games, pick some

**games with the right percentages, play those games and win.**  
**Or if you already had a game you wanted to play, you can use**  
**this method to cross-check. This is just one of the many**  
**strategies I'll reveal, that the successful people in betting use**  
**in making sure they hardly ever lose. I haven't even told you**  
**about the other apps and what they do. You'll be amazed.**  
**And the other apps are already available on IOS too.**

**Here are some 'random betting tips' that have been noticed to re-occur in over 90% of games (you'll find these tips sprinkled randomly all over this book)**

- ✓ **USA leagues usually score each other (Both Teams To Score). They also deliver over 1.5 a lot of times.**
- ✓ **Bundesliga usually score goals a lot.**
- ✓ **Indonesian leagues usually score goals.**
- ✓ **Finland leagues also usually score goals**
- ✓ **Brazilian leagues usually don't score too much**

## STRATEGY 2:

Next, let me show you how to use the BetMines App strategy to predict "OVER 1.5, 2.5 and 3.5".

FOR "Over 1.5", "Over 2.5", and "Over 3.5" (Now focus on the right side of the table).

## WHEN TO PLAY OVER 1.5:

- IF the "OVER 1.5" percentages are up to 80% for both teams each
- AND the "OVER 2.5" percentages are up to 60% for both teams each

-PLAY OVER 1.5 for that game

## WHEN TO PLAY OVER 2.5:

- IF the "OVER 2.5" percentages are up to 80% for both teams each
- AND the "OVER 3.5" percentages are up to 60% for both teams each

-PLAY OVER 2.5 for that game.

°Random Betting Tip

✓ For inplays, If there are less goals, there's a high chance there will be less corners.

# HOW TO PLAY "DOUBLE CHANCE" USING THE BETMINES STRATEGY

## STRATEGY 3:

### When To Play 1X

- To know if you should play 1X, on that same "statistics" page, press "DOUBLE CHANCE" and "1X2" to reveal their respective tables.

The image displays two side-by-side screenshots from the BetMines mobile application. Both screens show the 'LAST 10 MATCHES' section for different football teams.

**Left Screen (Capital Territory):**

- Header:** CAPITAL TERRITORY, 3/08/2019 - 06H00
- Section:** LAST 10 MATCHES:
- Options:** AVERAGE UNDER / OVER, GG / NG, 1X2, DOUBLE CHANCE (highlighted with an orange circle).
- Data:** Shows odds for 1X (4.33) and x2 (1.03). Below are four circular icons with percentages: 40% (red), 60% (orange), 60% (orange), and 50% (orange).
- Bottom Options:** TOTAL GOALS, AVERAGE CORNERS, CLEAN SHEETS.
- Header:** DOMESTIC LEAGUE:

**Right Screen (Riverina Rhinos vs Gungahlin):**

- Header:** CAPITAL TERRITORY, 3/08/2019 - 06H00
- Section:** LAST 10 MATCHES:
- Options:** AVERAGE UNDER / OVER, GG / NG, 1X2 (highlighted with an orange circle).
- Data:** Shows odds for 1 (10.00) and x (6.50). Below are four circular icons with percentages: 40% (red), 50% (orange), 0% (red), and 10% (orange).
- Bottom Options:** DOUBLE CHANCE, 1X (4.33), x2 (1.03).

-Now at the double chance table, IF "1X" percentages are up to 80% for both teams each

-AND at the 1X2 table, "1" percentages are up to 60% for both teams each

-PLAY 1X for that game.

## STRATEGY 4:

When To Play X2:

-At the double chance table, IF the "X2" percentages are up to 80% for both teams each

- AND at the 1X2 table, the "2" percentages are up to 60% for both teams each

### ILLUSTRATION

-PLAY X2 for that game.

These strategies will fetch you a lot of money. And guess what?, we're just starting.

◦ **Random Betting Tips:**

✓ **Australian leagues usually score a lot.**

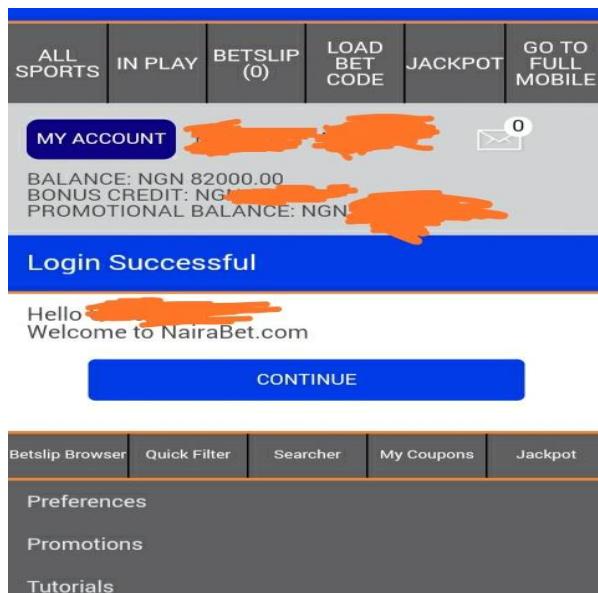

✓ **Australian lower leagues usually deliver "over 0.5 goal in second half". Leagues like NPL Victorian.**

## **STRATEGY 5:**

**HOME NO BET (HNB) & AWAY NO BET (ANB)... and how to apply them.**

**This strategy works best for games where the odds for both teams range from 2.0-6.0 respectively.**

**I used this strategy to win 82,000 in my nairabet account during the final games of the just concluded Championships league + Copa Del Rey final.**

**This is how it works:**

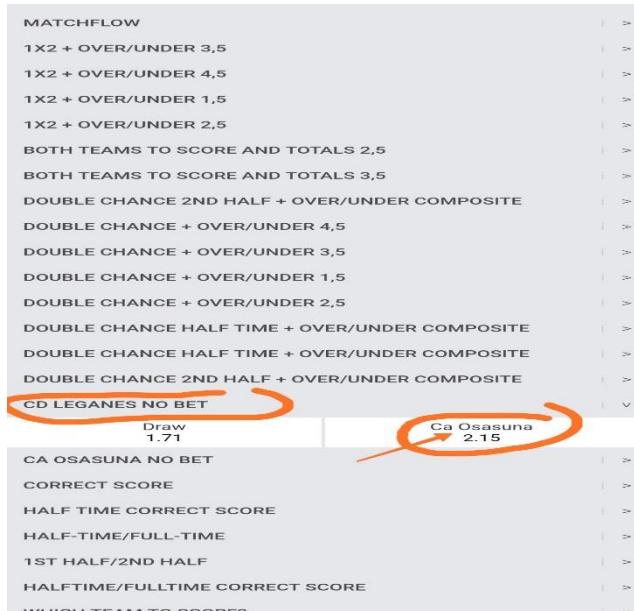

**-Check If the two teams to play in the game both have odds between 2.0-6.0 odds each. If yes, then proceed to the next stage.**

Match Betting	
Cd Leganes 2.10	Draw 3.25
Ca Osasuna 4.15

ASIAN HANDICAP -0,5

**-Ask yourself "between these two teams, which one has the lower odd?". In this case it is "cd Leganes"**

**-So I'll scroll down to "cd Leganes NO BET", and from there, bet on the other team (Ca Osasuna in this case)**

**-What this means is that If the team you bet on wins, you win a lot of money, usually 2 odds and above. But even if they lose, you still get a full refund. You can only lose if both teams draw, and we all know that compared to wins/losses, draws are a bit rare. Your chance of either winning a lot of money or getting a refund is very much higher.**

**This is one of the low-risk betting methods I've been using to win big. I still have tons and tons of tricks and strategies to share with you.**

**Note that not all Bookies have this HNB/ANB markets.**

◦ **Random Betting Tips**

✓ **For English teams, if you want to bet on yellow cards, pick 12 (meaning either team to get more yellow cards than the other).**

**This works a lot.**

✓ **The best half to bet "Under" corners is at First Half**

✓ **Best half to bet on "Over" corners is second half**

## **STRATEGY 6:**

### **THE BULLET BET PREDICTION APP STRATEGY**

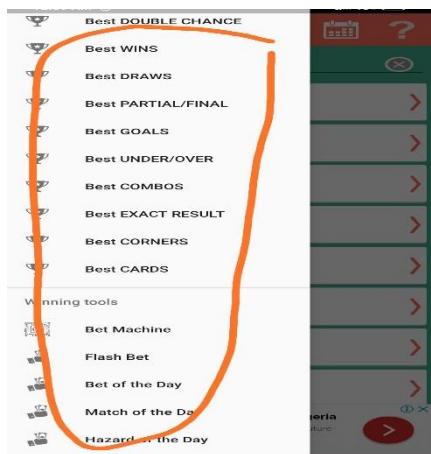

**BULLET BET PREDICTION (DOWNLOADABLE FROM  
PLAYSTORE and APPSTORE)**

**This app also gives predictions. And like the other app,  
sometimes it's right. Sometimes it's wrong.**

**Like I always do, I'll first introduce you to the features of the  
app before giving you the strategies you can apply to win big  
using this app.**

So in the options menu, the app has “best double chance, best wins, best draws, best goals, best exact score” etc.

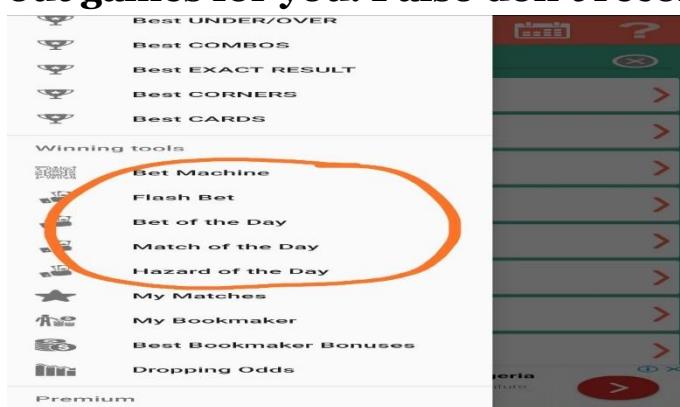

**Bet of the day = (1 betslip containing 2 games)**

**Match of the day = (1 betslip containing 1 game).**  
I've noticed that the both the BET OF THE DAY and MATCH OF THE DAY have moderate success rates.

**Hazard of the day = (high odds games, sometimes they enter but it's a bit too risky)**

**Flash bet = (the app posts two games at different intervals. I don't recommend it very much)**

**Bet machine = (you set how many odds you want, and it brings out games for you. I also don't recommend this very much)**

**NOW, ON HOW TO PREDICT GAMES BY YOURSELF USING  
BULLET BET PREDICTION APP;**

**Choose any country of your choice->League->Match->Under/Over**

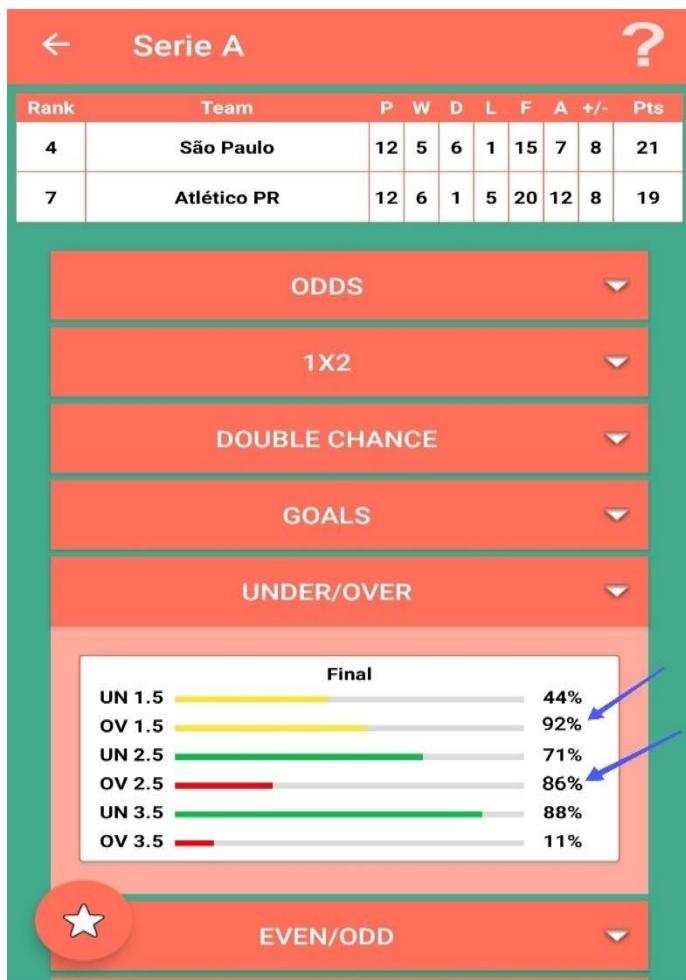

The screenshots illustrate the app's user interface for predicting football matches:

- Top Left Screenshot:** Shows the main menu with "All leagues" selected. It lists countries: Argentina, Austria, Brazil, Chile, China, Colombia, Denmark, and Ecuador. Each country has a red arrow icon to its right.
- Top Right Screenshot:** Shows the "All leagues" screen for 2019-08-03, Saturday. It lists leagues: Serie A, Serie B, Serie C, Serie D, and Paulista Segunda Divisão. Each league has a red arrow icon to its right.
- Bottom Screenshot:** Shows the "Serie A" screen for 2019-08-03, Saturday. It displays match details for Brazil vs Fluminense (Odd 1.25), Atlético PR vs Internacional (1X 12), Atlético PR vs São Paulo (Odd N/A), and Corinthians vs Palmeiras (Odd N/A). To the right, it shows a table of Serie A teams' statistics and a detailed "UNDER/OVER" section with a chart comparing actual vs predicted outcomes.

For "OVER 1.5" and "OVER 2.5".

**WHEN TO BET "OVER 1.5" :**

- If the percentage given for OVER 1.5 is up to 90%
- And the percentage given for OVER 2.5 is up to to 80%

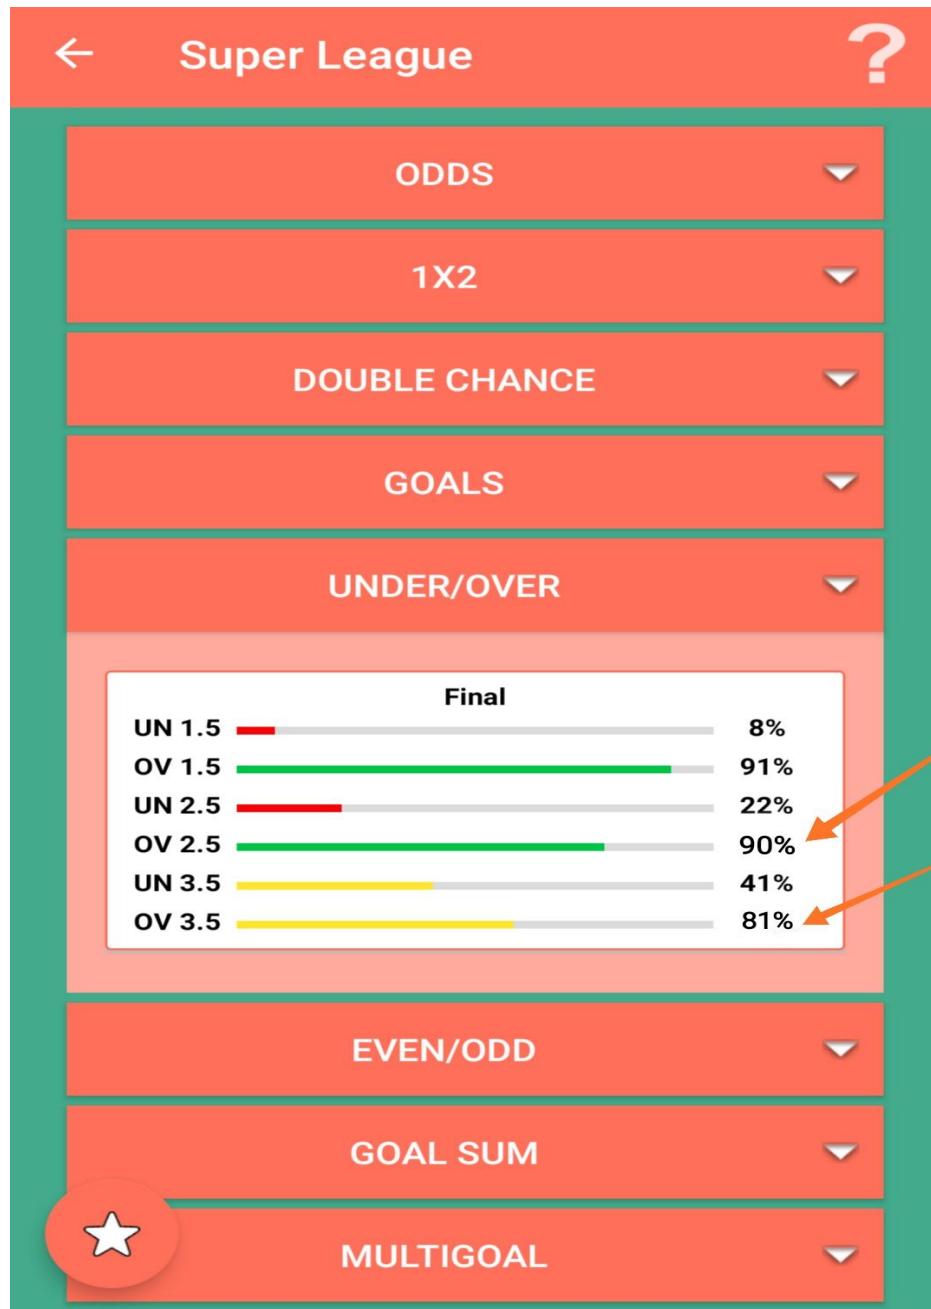

## ILLUSTRATION

-Bet OVER 1.5 for that game

## WHEN TO BET "OVER 2.5" :

- If the percentage given for OVER 2.5 is up to 90%
- And the percentage given for OVER 3.5 is up to 80%

## ILLUSTRATION

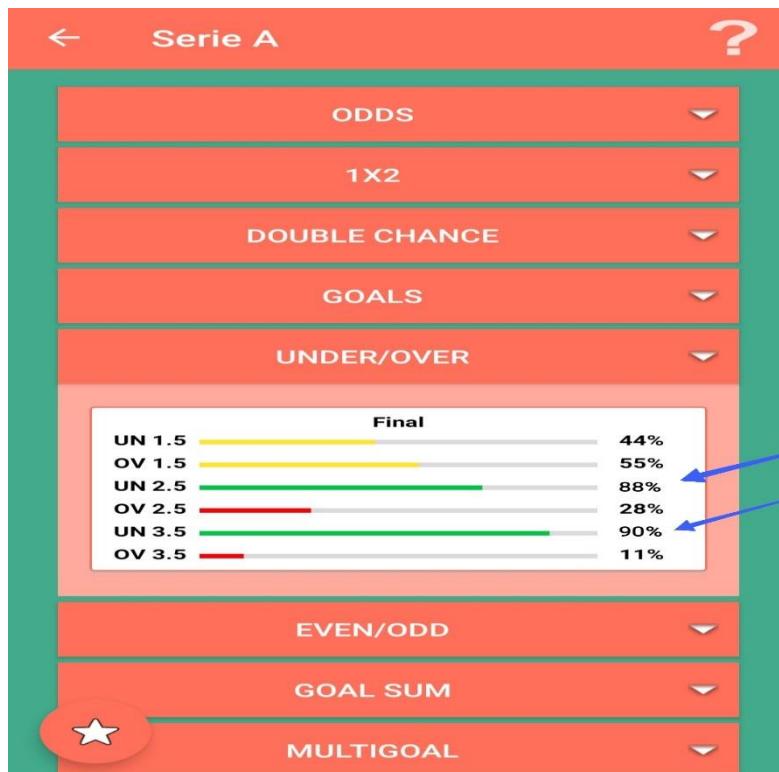

-Bet OVER 2.5 for that game

## **STRATEGY 7:**

**FOR "UNDER 2.5" and "UNDER 3.5" ON BULLET BET  
PREDICTION APP.**

**WHEN TO BET "UNDER 3.5" :**

- **IF the percentage given for UNDER 3.5 is up to 90%**
- **AND the percentage given for UNDER 2.5 is up to 80%**

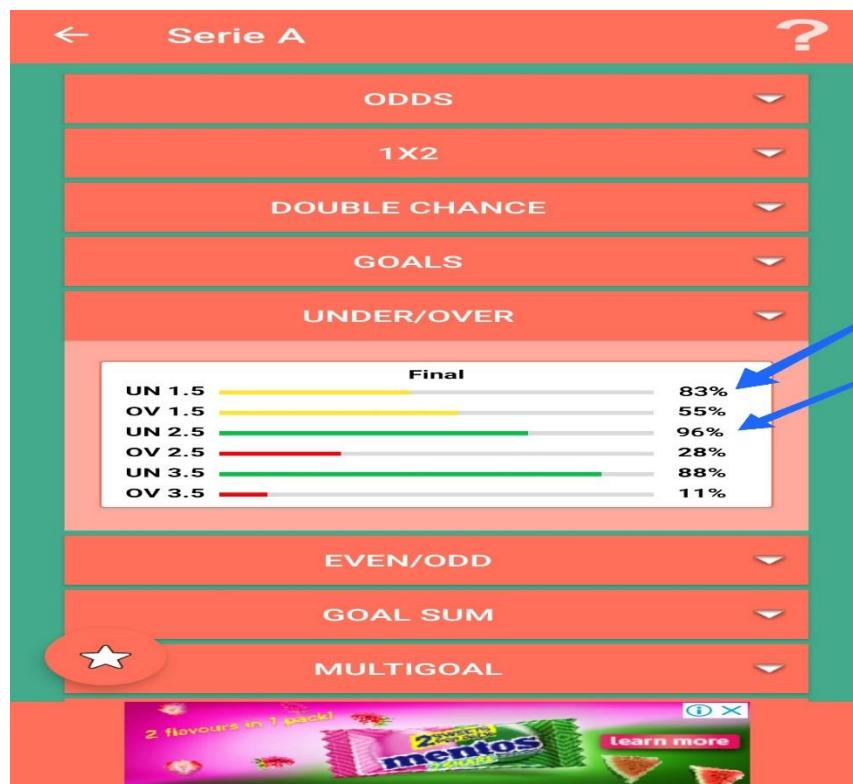

### **ILLUSTRATION**

- **Bet on UNDER 3.5 for that game**

## WHEN TO BET "UNDER 2.5"

- IF the percentage given for UNDER 2.5 is up to 90%
- AND the percentage given for UNDER 1.5 is up to 80%

## ILLUSTRATION

- Bet on UNDER 2.5 for that game

And that is how to predict and make money using Bullet Bet Prediction app. These strategies give you a 95% chance of success. Talk about an unfair advantage!.

◦ Random Betting Tips

✓ Playing handicap is also very good. If you feel a team will win, you can still give them extra one goal (handicap 1.5) to be safer.

✓ When two big teams are playing, "Goal in both halves" works a lot of times.

✓ When two big teams are playing in Indonesia, they're more likely to provide GG at Halftime. If you want to play it safer, pick "Over 0.5" in first half.

Example is in the game below.

The screenshot shows a mobile application interface for a bet history. At the top, there's a green header bar with a back arrow icon, the text "Bet info", and a printer icon. Below the header, the bet details are listed: "SINGLE №7630225713" and the date "17.07.19 | 09:44". To the right of these details are the odds "28518.00 ₩" and "3.2". A green button labeled "Paid out" is visible. Further down, the match information is provided: "Indonesia. Liga 1", "PSS SLEMAN - PSIS SEMARANG (1 HALF) 1:3 (1:3)", and the date "17.07.19 | 09:15". Next to this is the outcome "Both Teams To Score - Yes" with the odds "3.2" and a green button labeled "Won". The bottom portion of the screen is a large, light gray rectangular area.

## **STRATEGY 8:**

### **THE "STATS24" APP STRATEGY.**

**STATS24 (DOWNLOADABLE FROM PLAYSTORE AND APPSTORE)**

**This app is very easy to understand and navigate.**

A screenshot of the Stats24 mobile application. At the top, there's a navigation bar with icons for Football, Tennis, Ice Hockey, Basketball, and Handball. **And finally,**

## PAST MATCHES (h2h) - (VERY IMPORTANT FEATURE)

This is one of the most important features in sofascore. It shows a list of the times the two teams had met previously, and the scores they both played in those past meetings. From here, you can discover a pattern. Perhaps if both teams always score whenever they meet, you can play Goal-Goal (GG). If either side always wins without a draw, you can Double Chance (12), or a particular team always wins (1x or x2), or they always score a lot (over 1.5, 2.5 etc). There's so much data you can get from Past Matches (h2h) on sofascore.

**Just by looking at these stats, you can easily decide who is much more likely to win the game, or if both teams will score, or if there'll be more than one goal, etc.**

**...And that is it.**

## **Final Chapter**

**I've given you the best betting strategies you can use to make a lot of money for yourself.**

**This knowledge is very valuable and rare so I only ask for one**

**thing in return. That you do not send this book to anyone.**

**They may come in your DM and say they're broke, and tell you to send it. Please tell them to go get their own. You that bought yours did so, not because you have too much money, but because you realise the value.**

**And some of them may even be lying about being broke. It's human nature. Thank you in advance as you co-operate.**

**Also, these strategies give you the best chance possible to predict games with a very high rate of success. But note that in gambling, there no such thing as "sure game", just "very high probabilities/percentages" which help to increase your chances of success by a lot, so be gamble aware ([www.beGambleAware.org](http://www.beGambleAware.org)).**

**Lastly, feel free to DM @lastifol (on Twitter, Instagram or Telegram) with screenshots of your winning tickets using the**

**strategies. I like to make friends with successful people. And we might even start sharing our forecast games with one another, and win together.**

**Cheers to more wins.**

**And with that, we come to the end of this knowledge sharing experience.**

**Now go and make that money.**
